2. Help Susan build and fill the schedule for the seminar speaker
   ✔ Approve the seminar schedule template as soon as possible after you receive it from Susan.
     • Let Susan know if you will be providing transportation to and/or from the airport.
   ✔ Find colleagues to attend dinner with the speaker (follow the expense & number of attendee limits, which can be found on https://chem.umn.edu/support-services/finance-payroll-services-office
   ✔ Recruit graduate students to go to lunch with the speaker, and send their names and email addresses to Susan (names are required for Campus Club card requests)
   ✔ Help fill the schedule
     • After Susan sends the second notice for faculty members to sign up to meet with the speaker, you are responsible for filling the schedule by personally recruiting faculty members.

3. Important notes about international speakers, multi-day Gassman & Kolthoff lecture series, and cost sharing
   ✔ International speakers: Please note that expense reimbursement for international speakers is complex and involves multiple forms. We will build time in the schedule for the speaker to meet with Matt Polk in our accounting office to complete the required forms.
   ✔ Gassman and Kolthoff lectureships: Gassman and Kolthoff lectureships are multi-day events, typically involving three seminars, and a reception. Usually, there is a need to find hosts and attendees for three dinners, and students (please try to limit to three) for three lunches. For visits extending into four or five days, one of those days, typically Wednesday, is a day at Macalester or other nearby college. There is a need to begin working on these seminars well in advance. Set up a face-to-face meeting with Susan to discuss logistics. James Johns can help make connections with Macalester or another college; however, that college is responsible for all logistics for that one-day visit.
   ✔ Cost sharing awareness: Please be aware if the speaker intends to couple another visit to a different institution (university, college, or industry) with ours. Please just ask the speaker to divide his or her expenses in a fair and equitable manner.

4. Make dinner reservations
   ✔ Follow the expense limits. A maximum of six people may be reimbursed for each event. Must obtain approval from the department chair in advance for exceptions.
     • The expense limit is $18 maximum per person for breakfast and lunch, and $70 maximum per person for dinner, including tip and alcohol.
     • Complete and current information on hospitality is available on the finance and payroll services office webpage at https://chem.umn.edu/support-services/finance-payroll-services-office.

5. Expense reimbursements
   ✔ Obtain detailed, itemized receipts
     • Obtain separate, detailed, and itemized, not aggregate, receipts for alcohol and food.
     • If detailed, itemized receipts are not obtained, please contact the accounting office for procedure information.
   ✔ Do not use PCards to purchase alcohol.
   ✔ Dinner hosts are responsible for filling out expense forms. Susan will send a form to you with some of the information filled out such as the budget code and the justification. Dinner hosts are responsible for filling out the rest of the information and turning receipts and forms into the accounting office, 141 Smith Hall.

6. Introduce the speaker at the beginning of the seminar and moderate the post-lecture discussion.
