

Department of Chemistry Summer Research Program

Please complete the following application by **March 15** to be considered for a Summer Research Fellowship. Print and bring to 135 Smith Hall along with two letters of recommendation submitted to 135 Smith Hall by that same date. We will download your transcript.

First Name _____ Last Name _____

ID# _____

Preferred email address _____

Preferred mailing address:

address _____

City/State/Zip _____

Phone (area code first) _____

Expected date of graduation _____

Overall cumulative Grade Point Average _____

Overall Grade Point Average in all science and math classes completed _____

Number of science and math courses completed _____

Are you currently involved in research yes no

If yes, who is your research adviser _____

What is your primary research interest in chemistry _____

Upon graduation I am interested in (check all that apply)

Attending medical school

Attending graduate school in chemistry

Attending graduate school in biochemistry

Attending graduate school in chemical engineering

Attending graduate school in material science

Attending graduate school in pharmacy

Working in industry

Please use the space below to write a brief statement describing your long-term career goals and indicate how this summer research program would help facilitate these goals.

Please describe any barriers you have faced/overcome during your time as a college student.
